

**WOOD
TOUCHED
BY LIGHT**

HISTORY

In 2020, we'll celebrate twenty-five years at LZF. Our journey has been an exploration of light, love and life. During this time we've experienced our share of hard work, some has given better results than others but it has always brought us experiences that help us improve in the long run. Recently, we took a step back, reflecting on our way of working and our aspirations, making some much-needed changes. Our core values remain the same, but we've shaken things up: we have new lamps, new materials, new people and new designers, and we feel heady with excitement.

Comprising more than twenty-five lighting fixtures, LZF's new collection is both diverse and discerning. We set the bar high and we rose to meet it, in many ways exceeding our own expectations - we are proud of the results. Design and collaboration with creatives and artists from a range of sectors played a crucial role in the new collection, but they are also key aspects of our philosophy. Design is about a shared experience, one that recognises a common sensibility, a perceptiveness. Moreover, at LZF we see design as a cause. The source behind many of our processes, we aim to utilise design wherever possible: in the products we develop, in how we show them at fairs and in our corresponding communication campaigns. Design is a fundamental and essential part of the LZF experience.

At LZF we are always mindful of efficiency and sustainability, of innovation and longevity. We know that product design is about a complete experience and we're working hard to meet your expectations. But more than this, we know that light is an integral part of our lives, intimately connected with our emotions and feelings. In the pages of this catalogue, we hope you will take pleasure in our new lamps. They are a physical expression of everything that LZF stands for and they mark a new chapter in the company's journey.

NATURAL WOOD MEANS NATURAL LIGHT

Timberlite™

The mark of
responsible forestry

Wood is a noble material and has been part of our DNA since our beginnings. All LZF lamps are handmade from FSC natural wood veneer, ensuring their origin from controlled forests and guaranteeing our sustainability and environmental commitment. LZF lamps' wood veneers are treated with a technique patented by LZF, called Timberlite®, that allows this fragile material to become flexible and resistant without the need of any chemical processes. Knots and other elements of wood are a natural occurrence and form part of the feel and design of the material. As a living material our veneers will age with time, changing as you change, accompanying you with their richness during a whole lifetime.

Ramón Esteve Estudio

Black Note

Keys
Triplet
Duplet

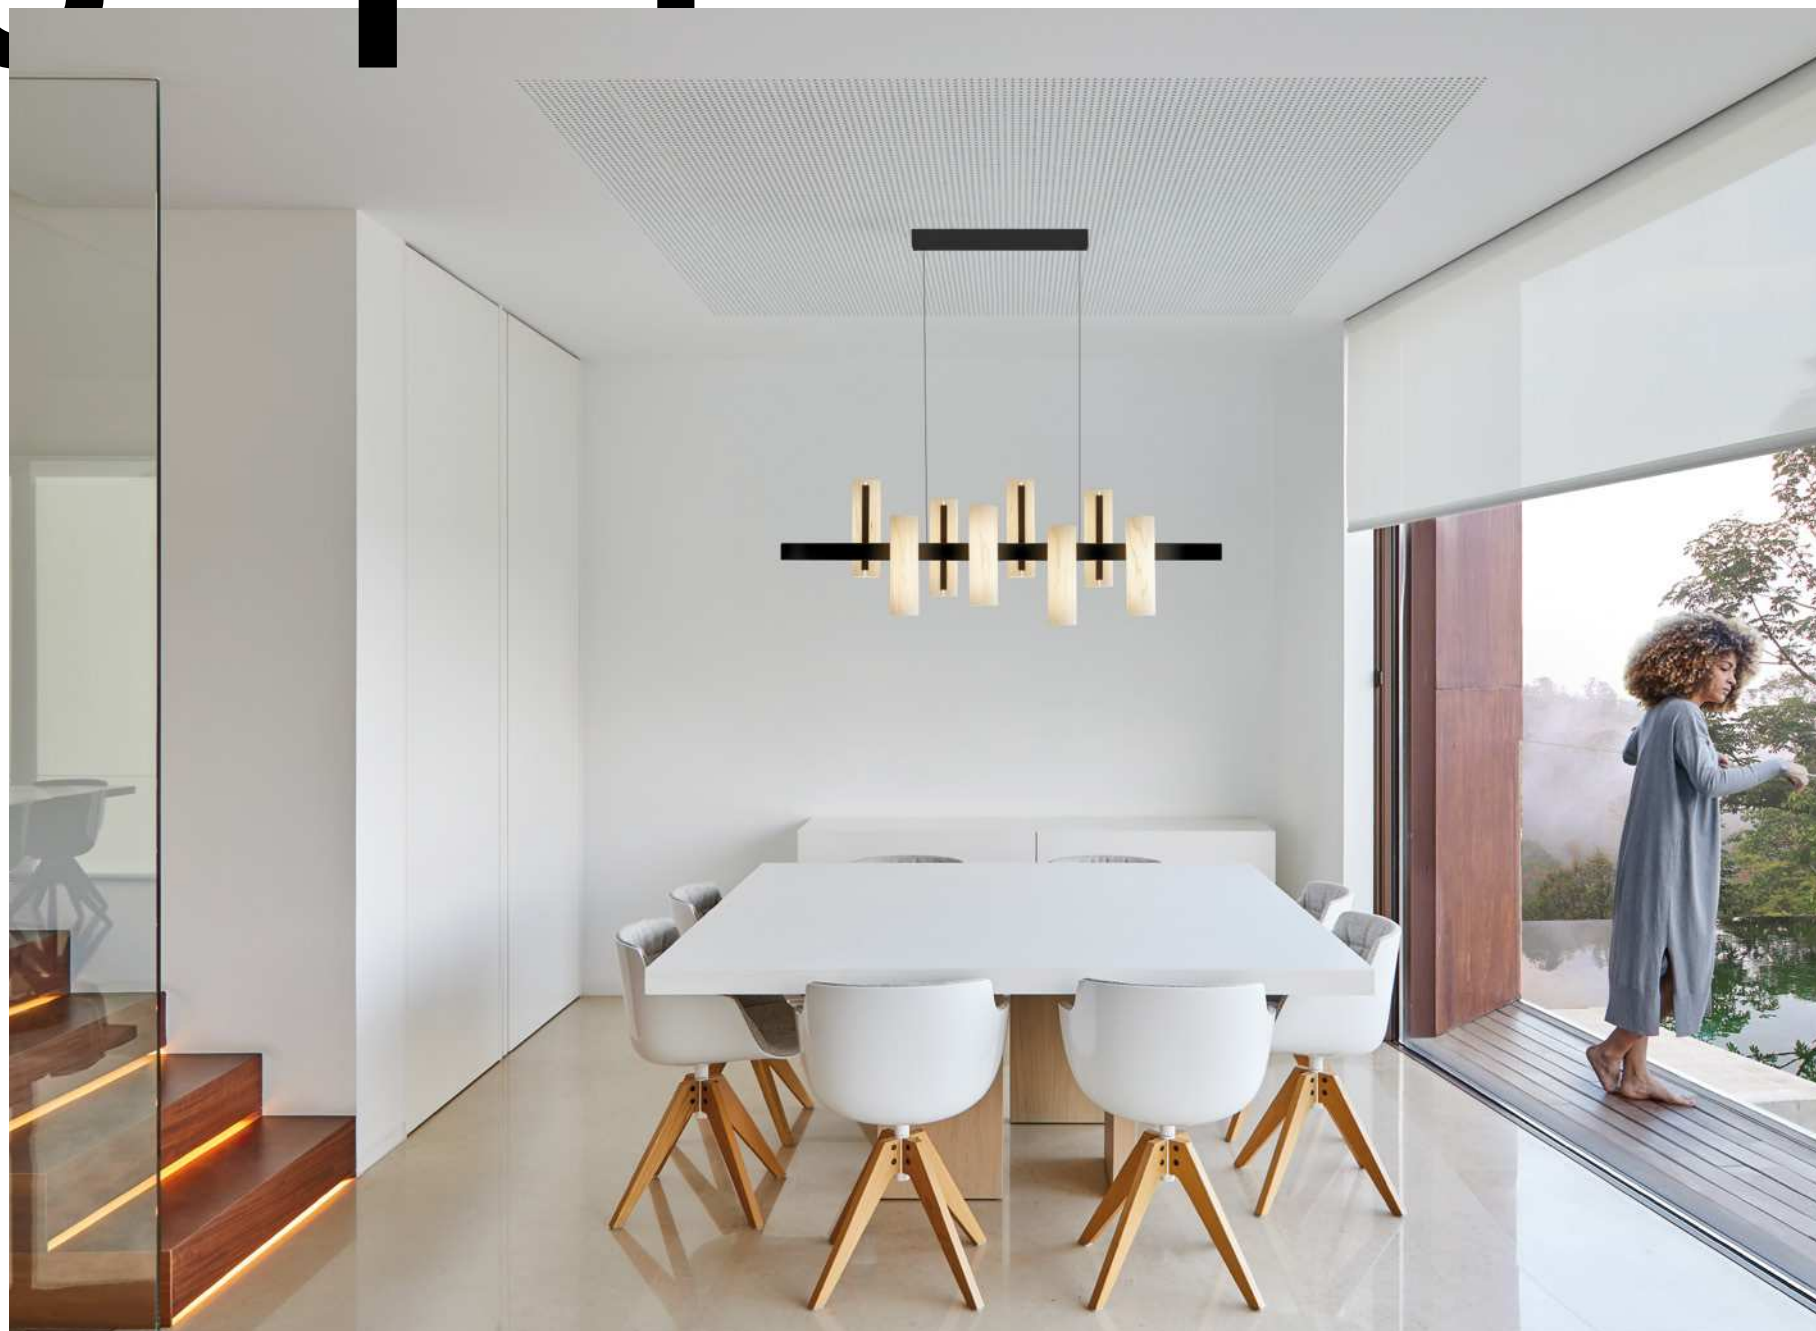

Suspension
Susp. & Floor
Wall

Designed by Ramón Esteve, Black Note is a lamp with perpendicular shades that rise and fall in harmony. Its rhythmic arrangement is inspired by the black keys on a piano, whose sharp and flat notes add emotion and passion to a melody.

Black note's metal frame in our new metallic finishes work, works harmoniously with its luminous, warm wood veneer shades. Ramón Esteve created three Black Note compositions: Black Note Keys (horizontal), Black Note Triplets (suspension & floor) and Black Note Duplets (wall). These differing compositions, with their rhythmic forms, offer a symphony of light, texture and pattern.

• BLACK NOTE KEYS - SUSPENSION

20 Ivory White Wood Veneer & Matt Black Metal Structure & Canopy.

THESIS

Thesis

Floor
Table
Wall

Designed by:
Ramón Esteve Estudio

Thesis is a table lamp and a floor lamp. It is a modern lamp whose companionship is close and intimate, casting a warm glow as you toil through the night, and by your side as you read or simply contemplate the day. Designed by Ramón Esteve, the Thesis lamp is well suited to quiet spaces: in a library, private study or cosy corner, its minimal form and clean lines are free from distraction.

In creating Thesis, a modest metallic base holds a wood veneer shade in its three prongs. Each prong contains an LED that diffuses light downwards, while casting a radiance that quietly highlights the natural timber veneer. In profile, is authoritative and introspective, a quiet light with a smart, introverted personality.

SKYLINE

Skyline

Suspension
Wall
Table

Designed by:
estudi{H}ac

Created by estudi{H}ac, Skyline is tailor-made using layers of several distinct materials: natural wood veneer, wire mesh and etched acrylic glass. The lamp diffuses light via a carefully arranged skyline of colours, textures and shadows. With a focus on detail, shapes and materials, estudi{H}ac has woven its concept of tailored elegance into the fabric of Skyline.

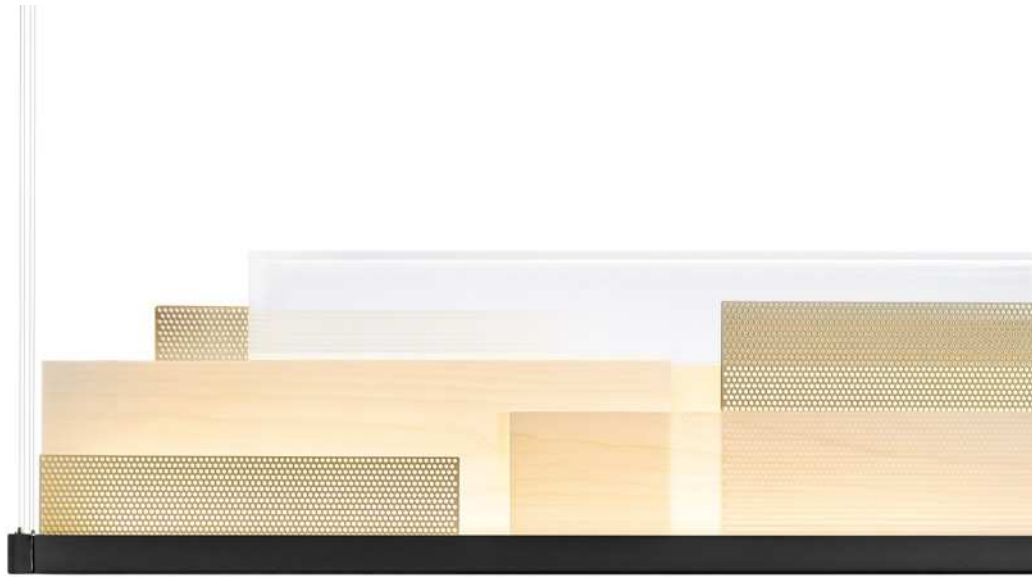

Skyline is designed to swivel: facing either upwards or downwards, the outline of layered, decorative shapes provides an ambient glow, while the horizontal base shines a direct upward or downward light. A truly novel and inventive lamp, Skyline's use of different materials marks a new direction for LZF.

● **SKYLINE - SUSPENSION**
20 White Wood Veneer, Matt Ivory Perforated Metal & Matt Ivory Metal Base.

● **SKYLINE - SUSPENSION**
22 Natural Beech Wood Veneer, Gold Perforated Metal & Gold Metal Base.

- **SKYLINE - SUSPENSION**
20 White Wood Veneer, Matt Ivory Perforated Metal & Matt Black Metal Base.

- **SKYLINE - SUSPENSION**
22 Natural Beech Wood Veneer, Gold Perforated Metal & Gold Metal Base.

The Skyline suspension has a dual electric circuit that allows for independent control of the technical downlight and the ambient light. It also can be swivelled 180° so that the ambient light can either be facing upwards or downwards.

LENS

Lens

Floor
Table

Designed by:
Mut Design

- **LENS**
33 Pale Rose Wood Veneer & Copper Metal Structure.

Designed by MUT, Lens enjoys flowing lines with no hard edges. Its wood veneer shade surrounds an oval circumference of light, and in its centre is a clear void. The shade is connected to a slender metallic base. Available as a table and floor lamp, Lens has two shade types: circular and elliptic. The elliptic version has two shapes: an elongated ellipse and a truncated ellipse.

Free from interruption, Lens's radiant light traces the air. Perfectly symmetrical and sleek, soothing and suave, Lens is one smooth luminaire.

LO

Designed by:
Ray Power

Lola

Suspension
Floor
Table

Lola is the latest lamp for LZF designed by long-time collaborator Ray Power. Showcasing Power's ability to create imaginative three-dimensional forms, Lola is a conical lamp with an intricate geometric pattern. A veritable labour of love, Lola's shape went through many iterations, drawings and prototypes. The end result is, without doubt, a marvel of lighting design.

A particularly piquant Spanish name, Lola is very much alive, sensuous and intriguing. In a domestic or contract setting, Lola is a lamp that attracts and pleases the eye. Highly original and truly sophisticated, Lola's complex veneer construction is both accentuated and softened when illuminated. Available in a number of sizes and LZF's range of natural wood colours, Lola is stimulating, fascinating, arresting and sparkling: an especially piquant light.

AIR

Air

Table
Wall

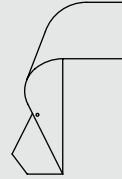

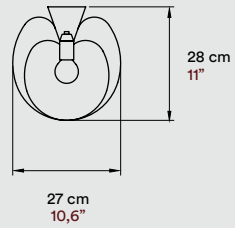

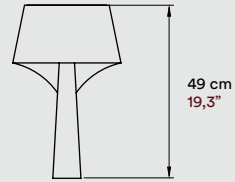

Designed by:
Ray Power

The Air light is sublime, graceful and enchanting. Its shape exhibits the designer's characteristic penchant for imaginative three-dimensional forms. The Air lamp's pleats and folds work to create a unique wood veneer light, one whose character demonstrates balance with equanimity and restraint.

Air lamp diffuses light in a manner that is flawless and low-key, its singular silhouette shining with a radiant warmth and vitality. A free-flowing, effortless light, Air lamp enjoys a distinctly individual profile.

The Banga light's combined veneer pieces and metal frame bear a resemblance to a plush brolly or indeed, to a well dressed parasol. Banga enjoys an expressive Eastern world-like quality, together with a nod to neoclassicism and its principles of simplicity and symmetry.

CAVI DE LABRO

Candelabro

Small
Large

Designed by:
Mariví Calvo

Imagine a suspension light that embodies many of LZF's greatest hits. Candelabro describes a remarkably representational form that unites the finest collection of wood veneer pendants. The performers include such luminaries as Agatha and Mikado, Raindrop and Totem. Hovering amid the lights are a number of golden birds, each one enjoying a magical world of wonder. Together, these birds and the various pendants stage a thrilling opus in light, a majestic piece that will give the viewer pleasure every time.

CERVANTES

Cervantes

Suspension
Ceiling

Designed by:
Burkhard Dämmer

Cervantes is a truly noble light, its shapely form both splendid and sublime. When creating this lamp, designer was inspired by Señor Miguel de Cervantes, a Spanish novelist and dramatist who was fond of sporting a ruff collar.

Cervantes demonstrates the remarkable pliability of wood veneer. The ruff-like pattern, with its elaborate figure-of-eight folds, is fashioned into an intriguing latticework of wood strips. Set into a luminaire shaped like a concave lens, the wood strips make the ideal light diffuser.

With an air of the Renaissance and a touch of the Baroque, Cervantes is a hi-tech light hailing from noble roots.

Domo

Designed by:
Rqr Studio

With its handsome form, Domo is reserved, strong and aesthetically presented. This lamp consists of two layers: an outer layer formed using four interlocking timber veneer slats and an inner layer fashioned from seamless veneer joints. In history, the dome is a structure that exhibits strength. It is therefore fitting that Domo is an earnest light, with an inner flame and passion that truly shines.

Domo reflects light downwards and is perfect for a variety of tasks and chores. Pure, simple and practical, Domo is delightfully earnest.

ESCAPE

Escape is an avant-garde pendant with a smart domino-like structure. Its self-supporting veneer panels give the impression of falling into a ring of light, their form defying gravity.

Designed by Ray Power, Escape is a truly handsome, self-assured light. While enjoying a little bit of swagger and appearing fairly pleased with itself, the Escape pendant's manner is bright and buoyant. Moreover, Escape is entirely affable, having an approachable quality that is perfect for any well turned out setting.

J

A

R

R

Guijarro is a family of three pebble-like lights, each one perfect for use on a wall or ceiling. This lamps were inspired by fine shingle: small, smooth and rounded pebbles whose individual shapes have been carved over many years by water and sand. A tiny wonder of nature, every pebble exhibits its own colour, contours and form.

With three different sizes and a choice of wood veneer finishes, the Guijarro lights are especially eye-catching when displayed in a group formation. Just as pebbles live in harmony, present a strong sense of oneness.

HI-COLLAR

Hi-Collar

Designed by:
Ray Power

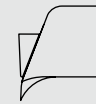

Inspired by the traditional stiff shirt collar of old, Ray Power designed the Hi-Collar wall light. This small and simple lamp casts an indirect light in subdued tones both upwards and downwards, while the single piece of bent wood veneer diffuses a warming glow. There is no preening or primping, just a straightforward, minimalistic and unobtrusive light. It is a light perfectly suited to quiet spaces in homes and hotels, studios and eateries.

Designed by:
Ray Power

The Elusive Light. Now you see me, now you don't. Ray Power presents a geometric pattern format which is applicable to a whole variety of shades. Using his talent for designing infinite shapes Ray has once again surprised us with this double layered pattern that transforms into a quasi three dimensional fabric when illuminated. Applied in a wall sconce and a ceiling light Hide & Seek provides a fascinating alternative as a veneer finish giving the lamp an on/off personality.

ICON

Icon

Designed by:
Burkhard Dämmer

Set within a brushed nickel frame, the Icon lamp smacks of a three-dimensional artwork with an industrial bent. From its front aspect, the lamp is perfectly even, its metal surround flush with the wood veneer shade. Move around the lamp and the Icon's profile changes, its form more rounded, having depth.

The close proximity of metal, wood and light give rise to a well proportioned lamp, where the individual elements knit together to define an iconic form. Viewed from different angles, the Icon is the artful depiction of a striking lamp.

Designed by:
Ray Power

Designed by Ray Power, Link appears exceptionally dashing in its stacked wood veneer Möbius strips. In mathematics, the Möbius strip is a surface with one continuous side, meaning the Link light is not only handsome, but discerning too.

With its billowy, cloud-like structure, Link is decidedly easy on the eye. Punctiliously crafted, the lamp's floating form is a clever illustration of wood's significant potential in lighting design. Link is available as a suspension lamp in three versions: small, large and modular. In addition, Link is an attractive floor lamp, its billowy mass poised on the top of a chrome tower-like base.

In Link, there is an obvious 'link' between brilliance and beauty, form and function.

MINIMIKADO

MiniMikado

Designed by:
Miguel Herranz

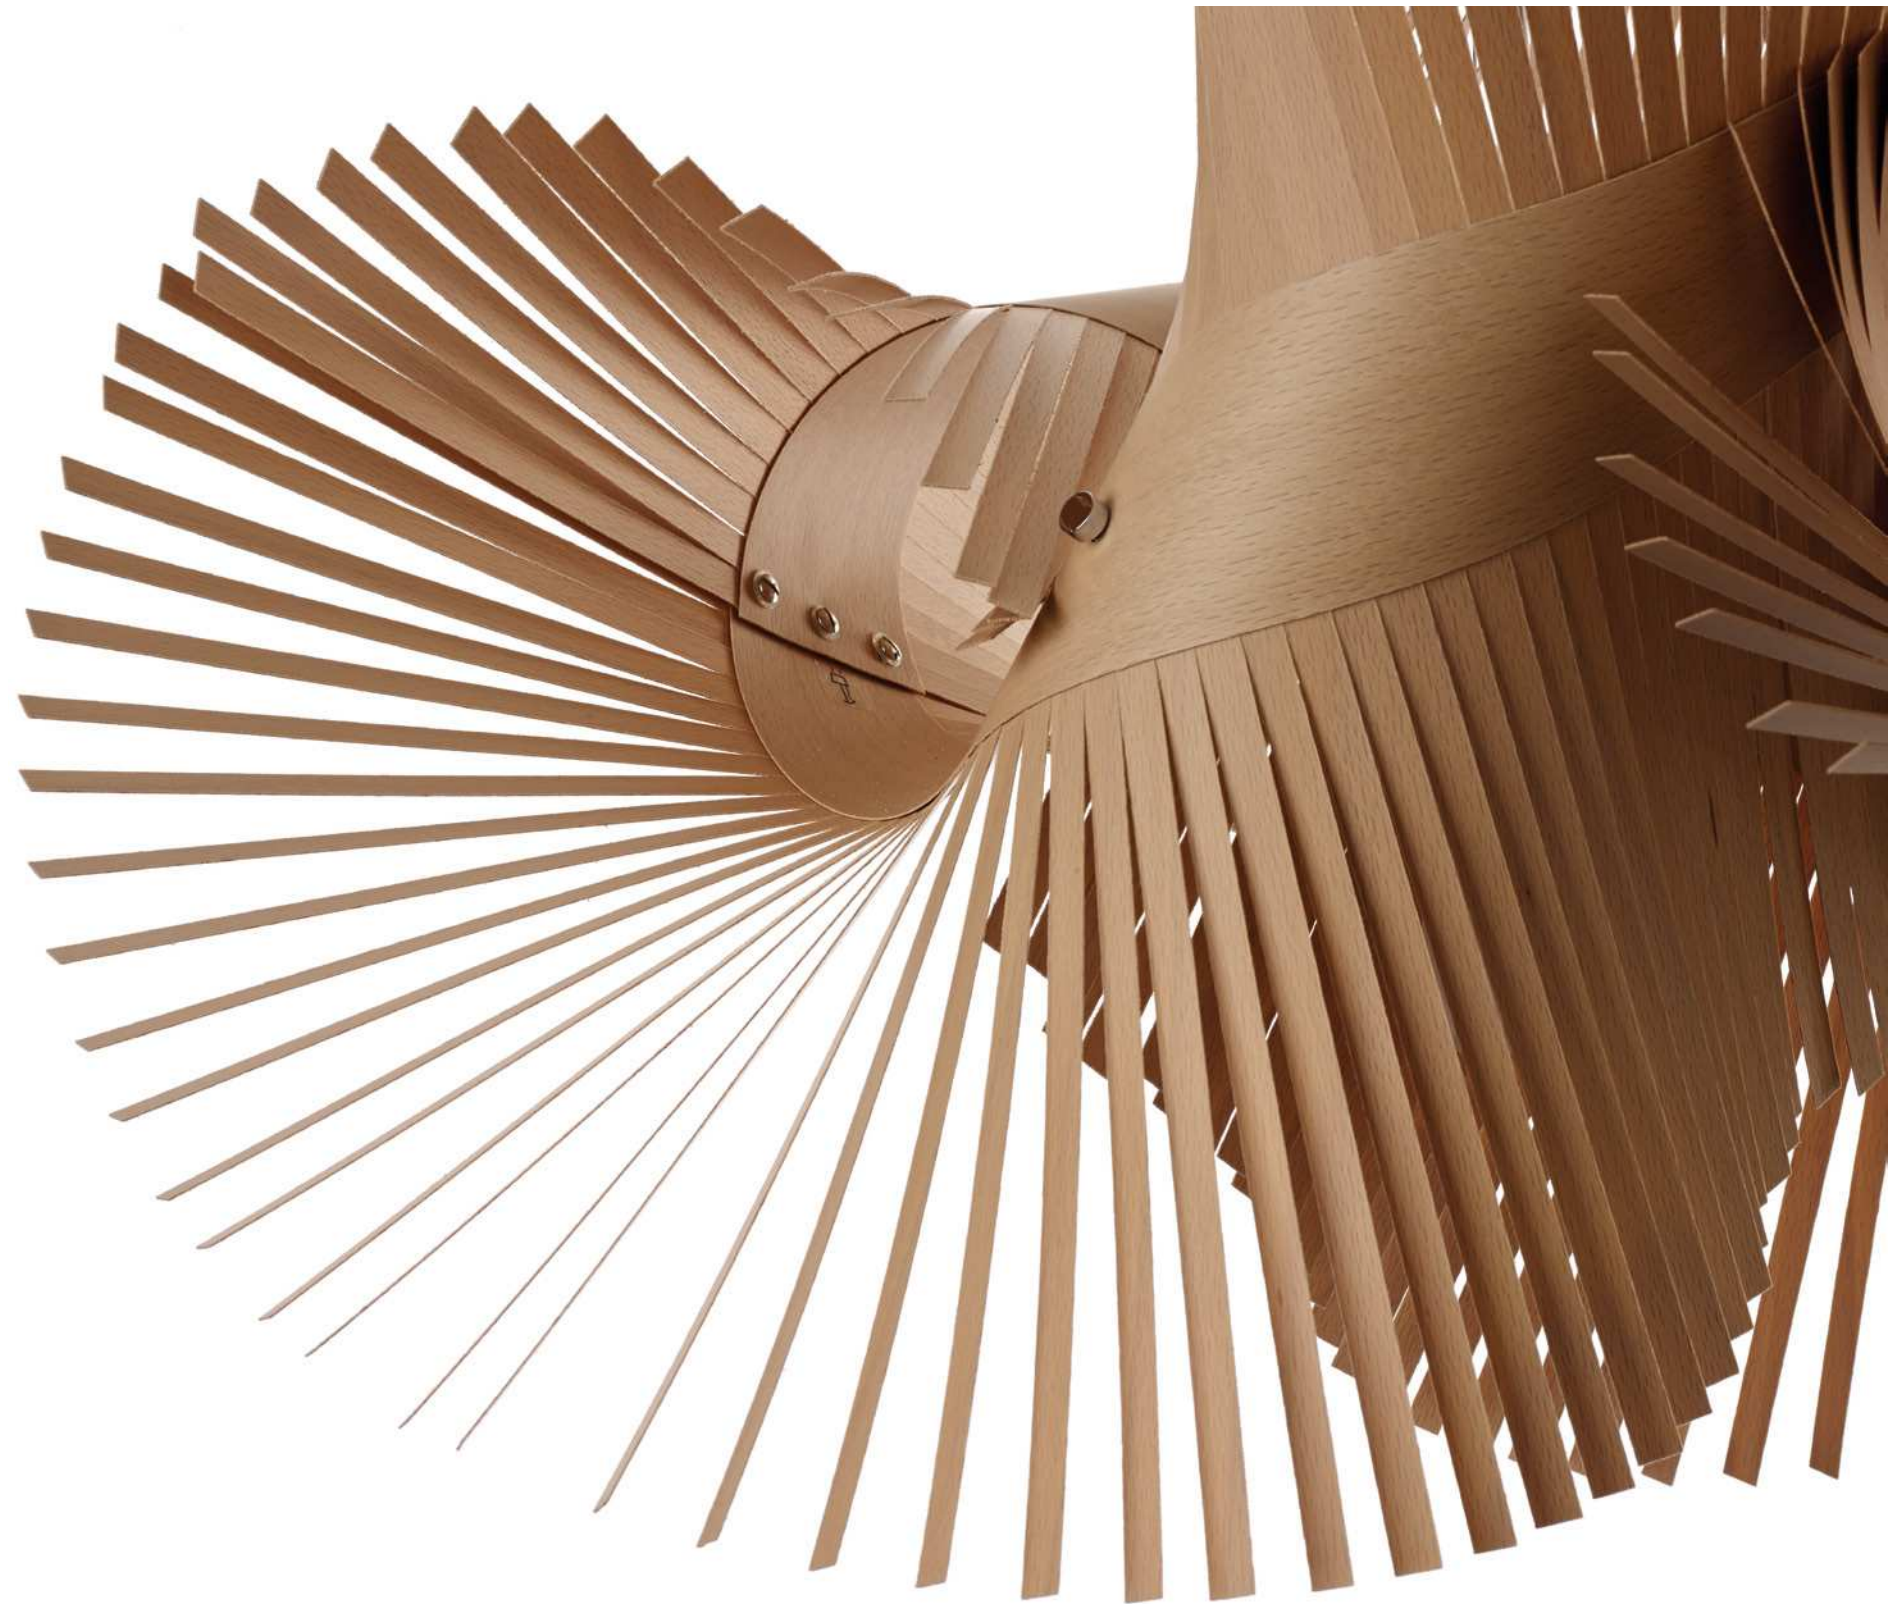

- **MINIMIKADO- SUSPENSION**
24 Yellow Wood Veneer. "Villa El Nido". Marbella, Spain.

The Mikado light takes its names from the classic pick-up-sticks game, where sticks are bundled together and when released, fall in a circular jumble. A radiant light, Mikado's wood veneer strips spread outwards, in a manner evocative of a bird's plumage. Cleverly engineered, the Mikado's form is both chaotic and harmonious at the same time.

Designed by Miguel Herranz, the Mikado is a free spirit, possessing an air of nonchalance and a teasingly impish swagger. It is a light whose profile is like a coruscating kaleidoscope of pattern.

Nut

Designed by:
Ray Power

Nut is an unfussy and modest knot of light, its elegant form made by the twisting and looping of wood veneer. A small and simple pendant, the Nut lamp is ideal when seeking to achieve a relaxed ambience.

The Nut lamp has two different forms, as determined by the direction of torsion—that is to say, the way in which the wood veneer is twisted.

Orbit

Designed by:
Miguel Herranz

With its thoughtful air, the ovalesque Orbit light will decorate any wall with quiet self-assurance. Created by Spanish designer Miguel Herranz, Orbit is an unfussy lamp whose shape is handmade by twisting a piece of wood veneer. Two designs are feasible, depending on the direction of torsion—that is how the wood veneer is twisted.

Light from the Orbit is diffused both upwards and downwards via its two apertures and an inner glow radiates outwards, accentuating the beauty of the timber veneer grain. In essence, just as the earth is in orbit around the sun, light is in orbit around the Orbit.

PAISLEY

Designed by:
Luis Eslava Studio

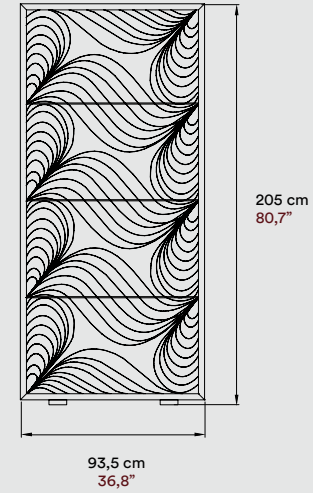

The intricate pattern on the Paisley screen brings to mind the famous droplet-shaped paisley motif, with its distinctive curving decoration. Paisley is an artistic modular floor standing partition, handmade from cherrywood veneer. By connecting several Paisley modules, one can create an aesthetically pleasing and

decorative room divider. In both natural and artificial light, the Paisley screen's weaving and flowing patterns cast exquisite swirling shadows that delight the eye. With its Zen-like quality and delicate woodwork, the prepossessing Paisley screen could be straight out of a traditional Japanese house or ryokan.

POD&

Medium

Designed by:
Burkhard Dämmer

Kin to the Poppy pendant, Pod is a vertically elongated and ellipse-like orbit of light whose body is made up of a repeated series of wood veneer strips. Different from the Poppy, a small gap between each strip on the Pod allows just a peek at the light within.

The Pod is appreciably unostentatious, having a fresh manner that smiles and illuminates its surroundings with an altruistic sense of cool. It is a pendant that works well discretely or as part of a striking cluster of Podand Poppy lights.

POPPY

Small
Medium

Kin to the Pod pendant, the slightly squat and spherical Poppy lamp is made up of a repeated series of wood veneer strips. Different from the Pod, a larger gap between each strip on the Poppy emits light with a greater luminosity, its mature form sparkling in full bloom.

Compared to the Pod pendant, Poppy is like the mature older sibling, with a fully developed form that lends weight to its mellow disposition. Both the Poppy and Pod lamps work well in unison, able to form impressive cloud-like clusters.

RAINDROP

Raindrop

Small
Medium

Designed by:
Javier Herrero Studio

Visualise the simple beauty of a stationary raindrop, a small and glistening droplet that instead of falling, remains in a state of suspended animation. While Tina couldn't stand the rain against her window, the Raindrop pendant is a welcome sight.

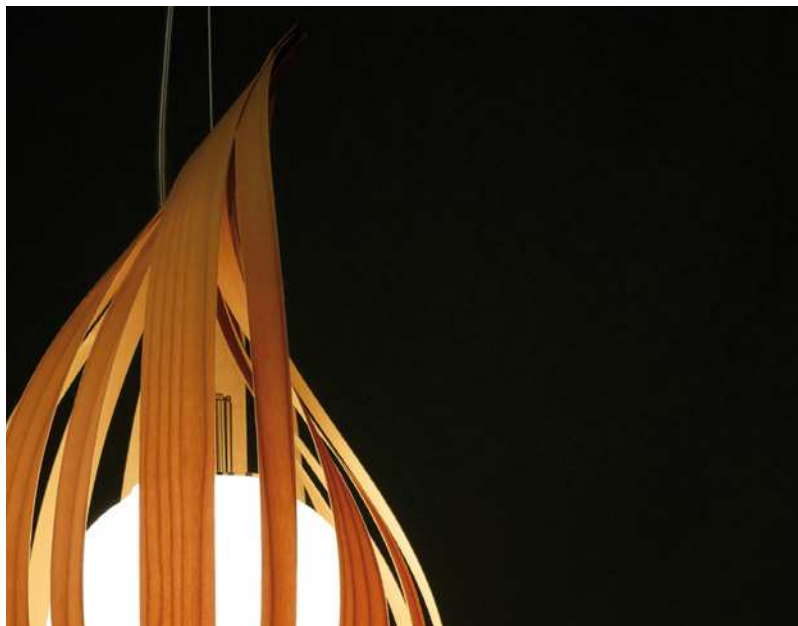

Javier Herrero imagined and designed the Raindrop pendant, its suspended shade made using strips of wood veneer that contain a glowing ball. Available in small and medium sizes, the Raindrop's form is playful and poised. It is a light that will hang gracefully by itself and is especially pleasing and engaging when arranged in a group formation.

SATURNIA

The Saturnia pendant is reminiscent of Saturn's system of planetary rings. A truly handsome and enchanting light, its form is one that captivates the eye: similar to the way in which we gaze wondrously at stars in the night sky.

Saturnia balances both indirect and direct lighting with aplomb. Its circular wood veneer spreads warm light outwards, while its Plexiglas diffuser provides the perfect direct light necessary for task-oriented jobs and for social or work environments. Saturnia makes a bold statement as a solo light or when suspended in a group of varied sizes.

Stitches

Bamako
Tombuctú

Designed by:
Burojet

Created by Egbert-Jan Lam of Netherlands-based Burojet Design Studio, Stitches is a family of four well-hemmed pendants: Tombuctú and Bamako. Each light is named after a city or town in Mali, West Africa. Mali has a long history as a producer of embroidery, its many skilled artisans—found throughout Tombuctú and Bamako—adept at needlework.

The Stitches pendants impart an appealing bohemian air, their warm wood veneer panels embroidered with peeping threads of light. Crafted with passion and precision, Tombuctú and Bamako hint at the simple beauty found in Malian embroidery.

Swirl

Small
Large

Designed by:
Ray Power

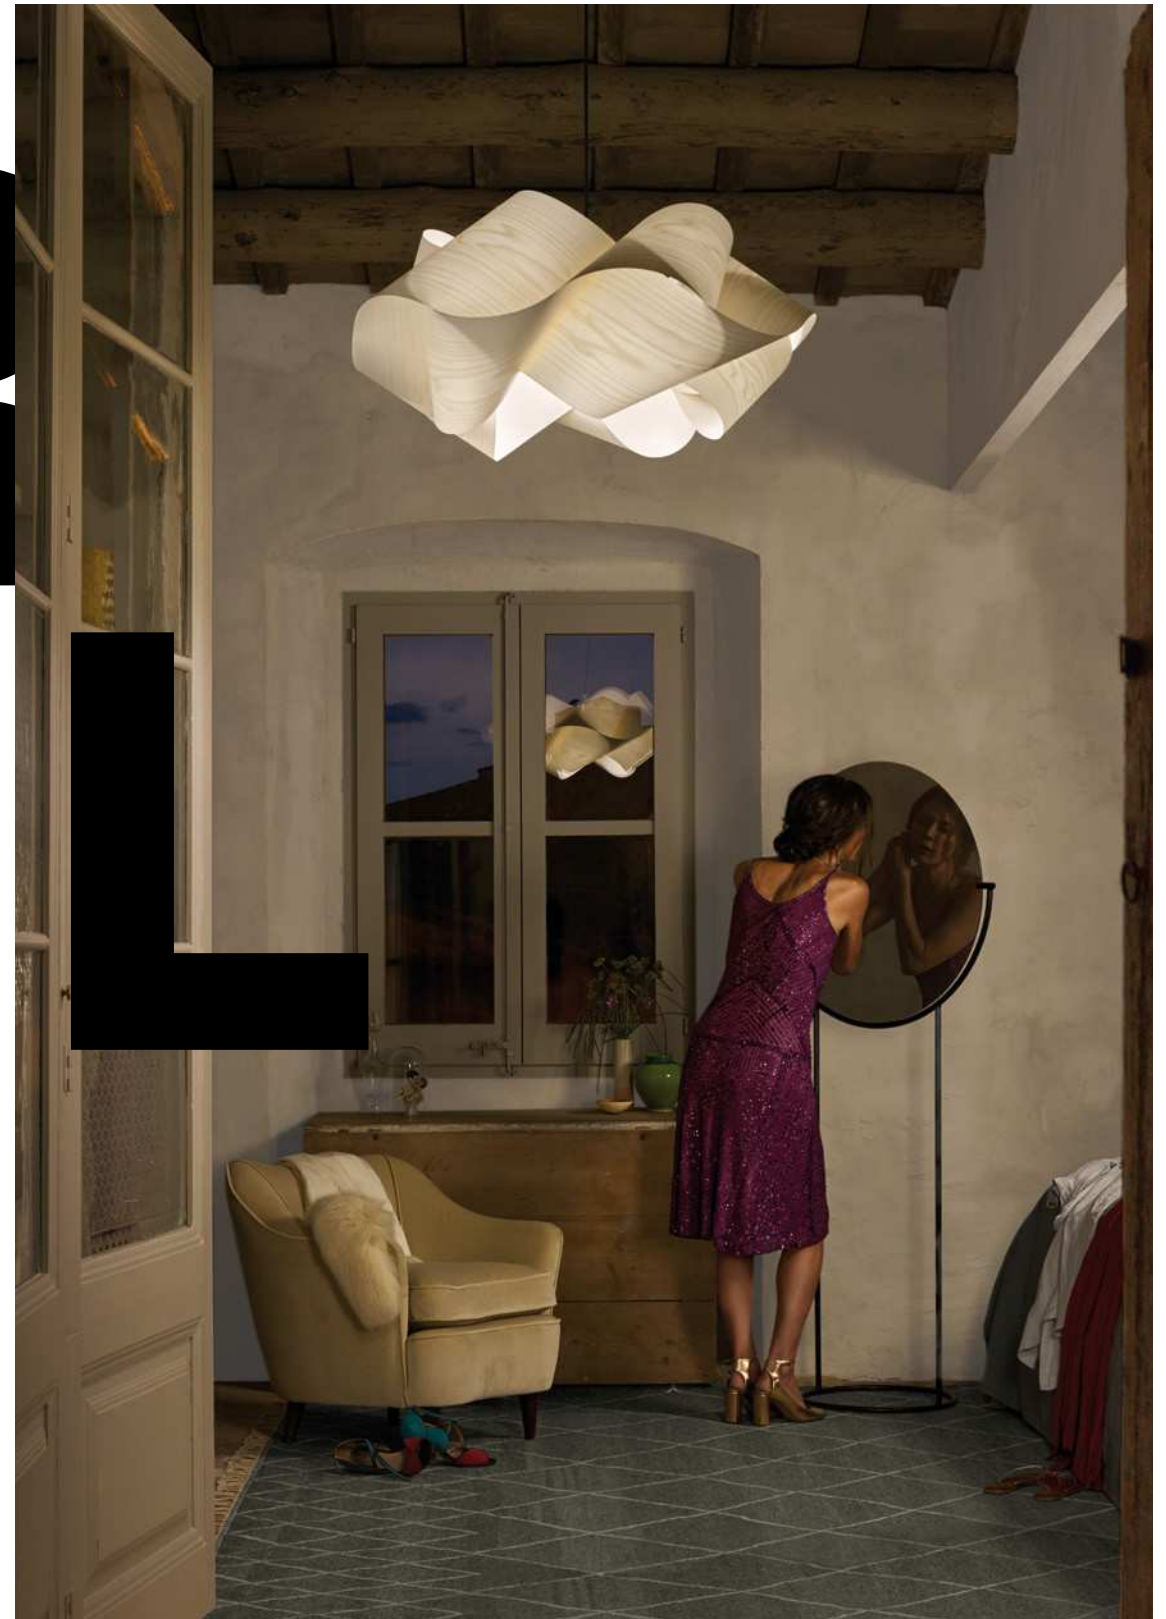

Swirl excites the eye with its eddying and whirling folds, their twisting twirl a sensuous feat. Designed by Ray Power, Swirl is an accomplished pendant, its form thoughtfully considered and sculptured. Power's designs are typically based on geometry and his predilection for creating three-dimensional forms from flat materials (wood veneer). Swirl is no exception, its precise contours brought to life in stereo.

With a soulful character and presence, the Swirl lamp will vibe well with any interior. When a light is striking from every angle, one might expect more than a hint of conceit. And yet Swirl is wholly modest, its beauty inspiring and uplifting.

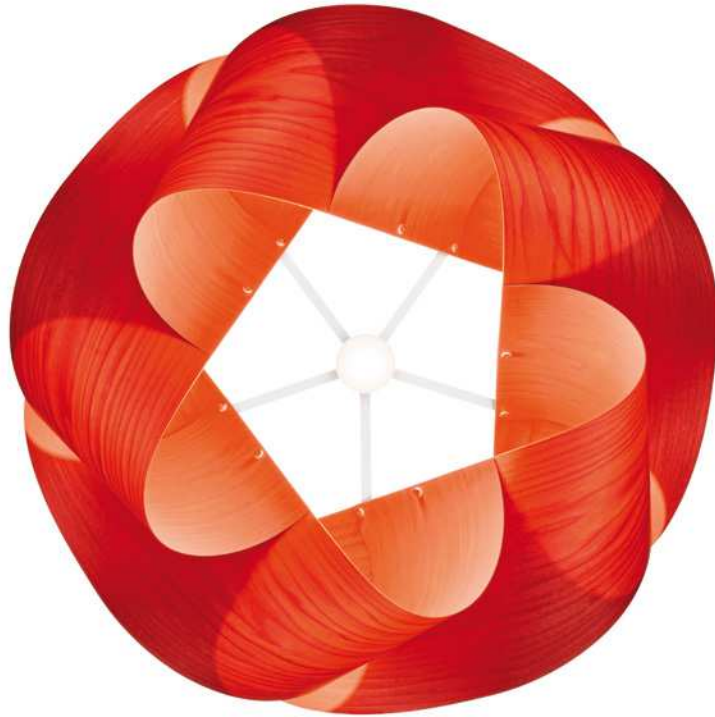

The Swirl pendant was accorded a Special Mention by the German Design Council.

Totem

Totem is a veritable feast for the senses, a light whose proportions enliven a space with dramatic effect. Envisaged by designers Mariví Calvo and Burkhard Dämmer, Totem evolved from the clever amalgamation of Dämmer's Pod and Poppy pendants.

A sublime lighting structure, Totem has the emblematic air of a sacred object, a light whose shape and spirit are reflected in cultures worldwide. Available in three stacked variations, the Totem pendant diffuses warm light through the gaps in its wood veneer strips. As a physical entity, Totem's presence is impressive. Just as important, its spiritual quality is entirely unreserved.

BIG BIRD

Big Bird

New
Lamp

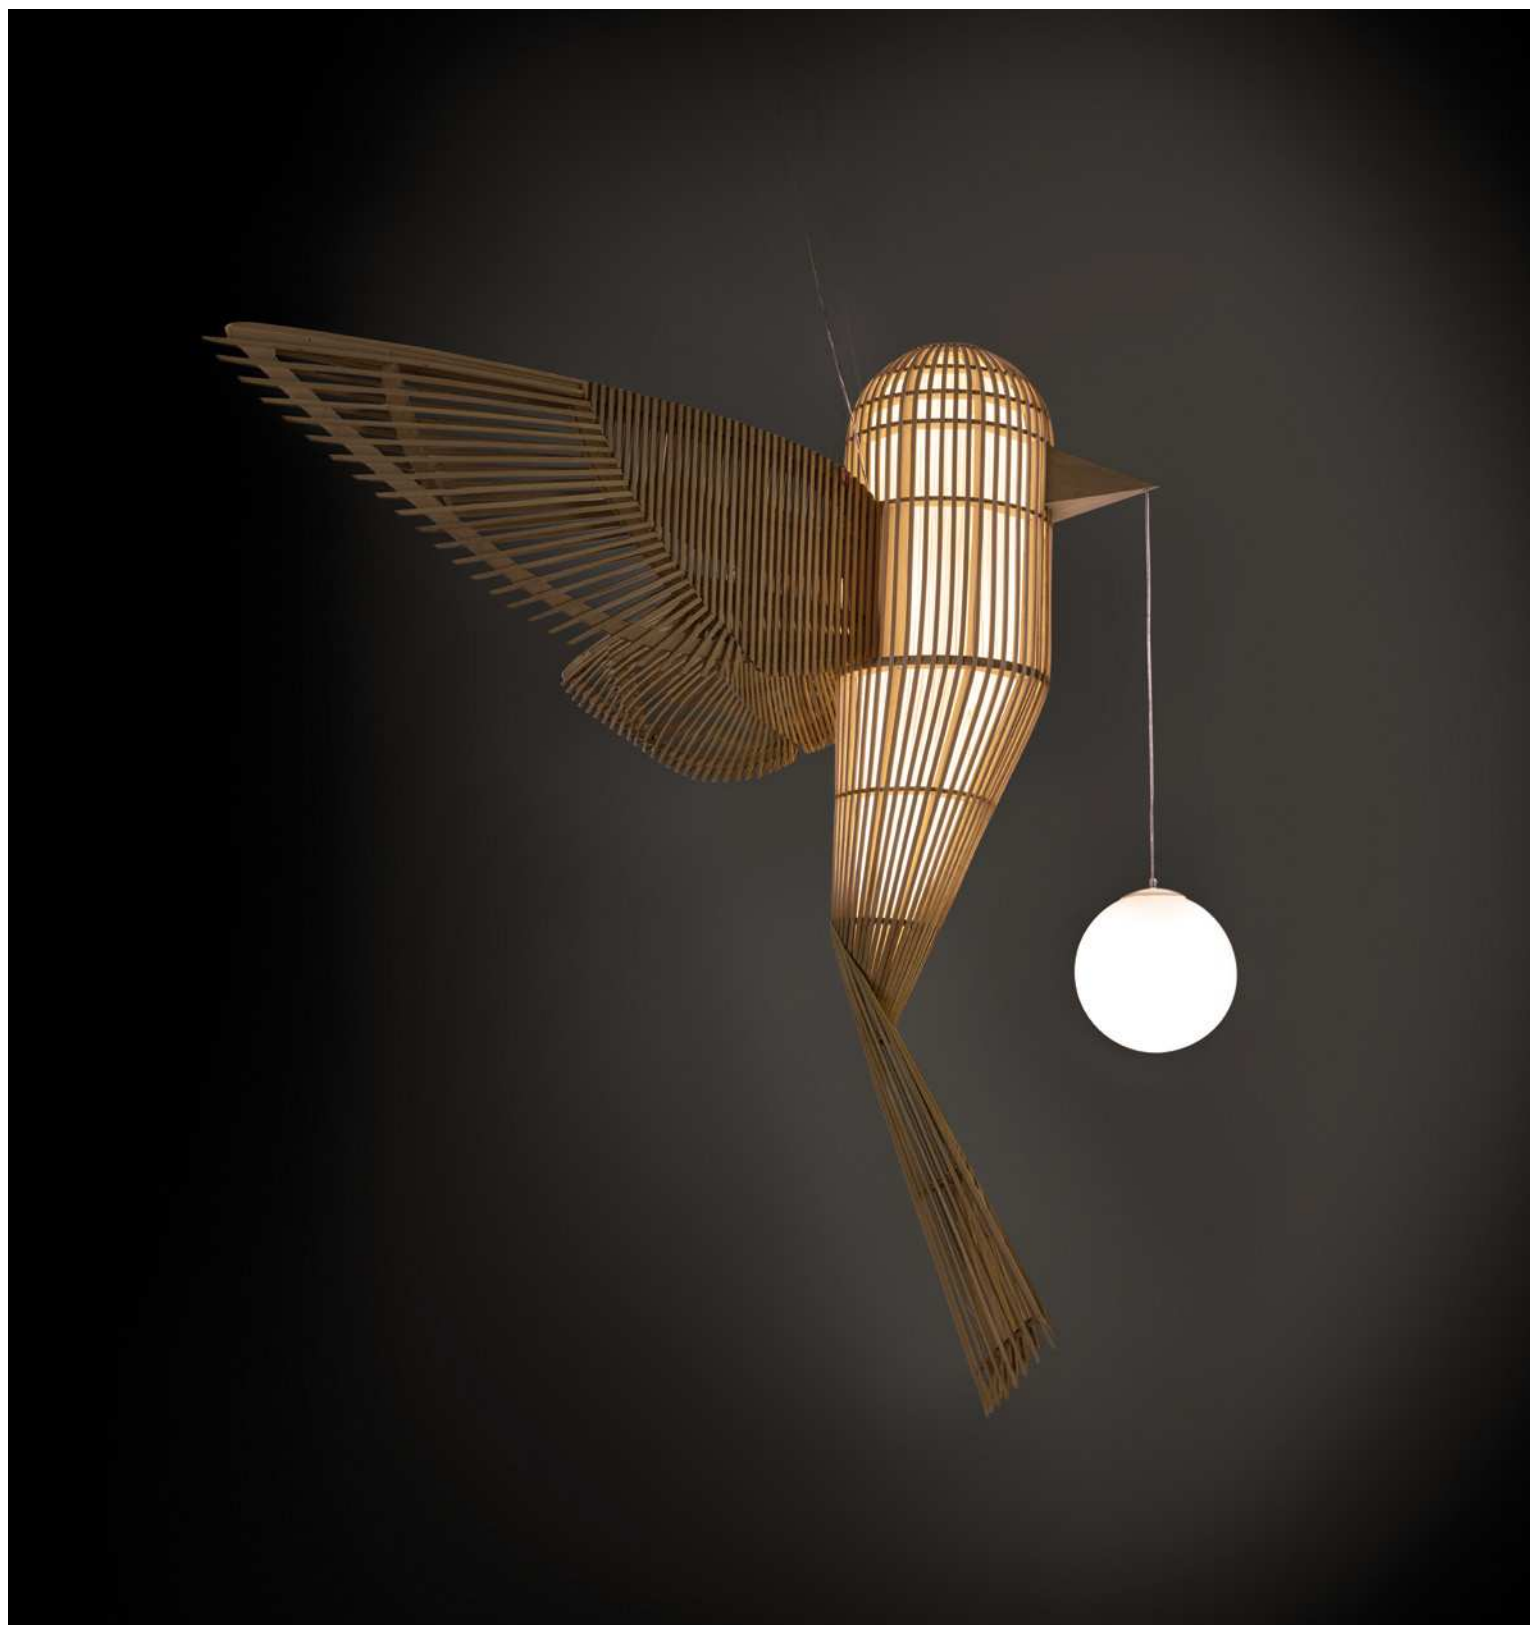

Designed by:
Isidro Ferrer & LZF Lab

As a new member of LZF's Life-Size family, Big Bird joins the happy adventures of Smelly Fant, Fish and Koi. Hovering vertically with fluttering wings, Big Bird has the agile appearance of a gentle hummingbird.

Created by the illustrator and designer Isidro Ferrer and built using a traditional craft technique called vareta, Big Bird is a masterly feat of wood craftsmanship. While light radiates from Big Bird's wooden plumage, a glass globe hangs from its beak, like a ball of glowing nectar.

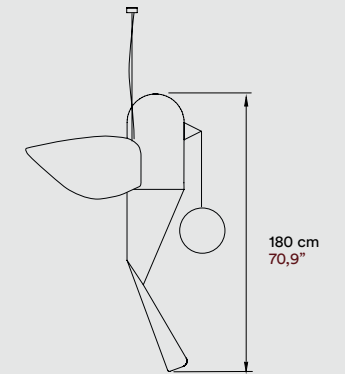

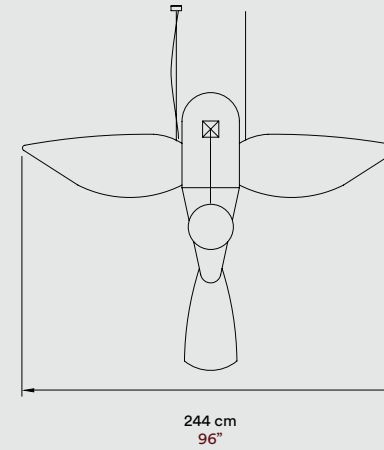

With Big Bird, LZF is once again dreaming big, re-engineering the concept of what a lamp can be, in both shape and scale.

FISH

The Walking Fish

Fish is modelled on one of the original pieces by Isidro Ferrer, a friendly fish with legs which has become one of the first large-scale light sculptures within the Funny Farm project. The carefully studied layout produces a captivating effect.

Designed by:
Isidro Ferrer & LZF Lab

SMELLY FANT

Smelly Fant

Designed by:
Isidro Ferrer & LZF Lab

Smelly Fant is the other Funny Farm animal we chose to convert into a light sculpture. Like all elephants, it has big ears, a trunk, even its own legs, and a body standing more than a meter and a half tall. To turn Isidro Ferrer's vision into a large-scale lamp, LZF has again drawn on the experience of the craftsman Manolo Martin.

Just as he did with Fish, Manolo used the "vareta" technique to shape the three spheres which constitute the body and the head of Elephant. Its luminous heart, at the centre of the sculpture, is diffused through a natural wood veneer internal lining.

KOI

Koi

Designed by:
Inocuo The sign & LZF Lab

Part pendant, part sculpture, Koi is a dramatic and decorative light that appears as a surreal wood creature. Koi has an ethereal beauty: engendering a considerable sense of wonderment, its animated form captivates the eye. Cutting an imposing figure, it offers the perfect lighting climax.

FINISHES

NATURAL TIMBER VENEER

The dramatic effect of light passing through the wood veneer is the essence and hallmark of LZF. This important feature would not be possible without the application of our patented process in treating the raw natural veneer: the Timberlite® system.

This system, the result of LZF's research & development work, allows us to work with an extremely flexible, yet very resistant veneer, which can take on many shapes without breaking. In addition to all our veneers being FSC certified, thanks to the treatment, the wood used to fabricate our lamps maintains its natural qualities, adopting different nuances and hues over time.

SOURCE LIGHT TEMPERATURE

Choose your light temperature carefully, wood veneer colour can change radically depending on the colour temperature you use.

Recommended temperature LED for coloured LZF shades:

20- Ivory White (3000k-6400k)

21-Cherry, 22-Beech, 28-Blue, 29-Grey, 30-Turquoise and 31-Chocolate, (4000k)

24-Yellow, 25-Orange, 26-Red and 33 Pale Rose (2700k-4000k)

21 Natural Cherry Off

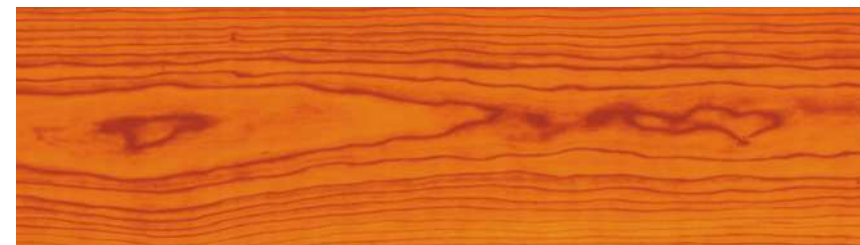

21 Natural Cherry 4000k

21 Natural Cherry 3000k

21 Natural Cherry 2700k

Use LZF wood swatches to see the spectacular real effect of the illuminated veneers.

METAL FINISHES

For too many years things have been simply black and white, but life is made up of many shades and we have been wanting to create a more generous array of skin colours for our lights for quite sometime. This year we have wanted to offer you the choice of not just picking your shade colour but also the colour of the metallic finish that accompanies it. Matt tones or coloured reflections in satin nickel finishes provide a whole new range of choice when selecting your lamp.
